

rural and urban communities; however, an estimated 42 percent have gaps in their capacity to provide dental care. "Deamonte's Law" would address this issue by establishing a 5-year, \$5 million pilot program to provide funds for dentists, equipment and construction for dental services at community health centers. The program would also provide support for contractual relationships between centers and private practice dentists.

"Deamonte's Law" would also address the dentist shortage. The U.S. Department of Health and Human Services estimates that there is a shortage of 4,650 dentists—and pediatric dentists are even more scarce. "Deamonte's Law" would address this issue by establishing a 5-year, \$5 million pilot program to enhance training and academic programs in pediatric dentistry, recruit and train dentists to study pediatrics, and provide continuing education for practicing dentists.

The legislation is endorsed by the American Dental Association.

I was joined in introducing this legislation by my colleagues, Chairman HENRY A. WAXMAN of California and Chairman DENNIS KUCINICH of Ohio.

I want to thank both Congressmen for their leadership and dedication to this issue.

On May 2, 2007, at my request, we conducted an oversight hearing entitled, "Evaluating Pediatric Dental Care under Medicaid" to investigate Deamonte Driver's death.

At the hearing, it became apparent that the Centers for Medicare and Medicaid Services has categorically failed to meet its oversight responsibilities with regard to ensuring that state health departments, and the managed care organizations that they contract with, are in compliance with the law.

Section 1905(r)(3) of the Social Security Act ensures that every Medicaid-eligible child will have access to medically necessary dental care under the early and periodic screening, diagnostic and treatment (EPSDT) provision. However, it is evident from our investigation that this has not been the case.

That is why Chairman KUCINICH and I sent letters to CMS Director Dennis Smith and Health and Human Services (HHS) Department Secretary Michael Leavitt to ensure that they are fulfilling their statutory obligation to provide comprehensive dental care to every Medicaid-eligible child.

I remain committed to addressing this problem from every angle, and I would urge all my colleagues to join me by supporting "Deamonte's Law," H.R. 2371.

I want to thank Representatives MILLER, COHEN, GRIJALVA, SERRANO, MCCOLLUM and PAYNE for already cosponsoring the legislation, and I would urge all of my colleagues to join them.

Children's lives are at stake. I can think of no better reason to act with a great sense of urgency.

TRIBUTE TO JESUS ARMAS—HAYWARD CITY MANAGER  
EXTRAORDINAIRE

## HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 23, 2007

Mr. STARK. Madam Speaker, I rise today to pay tribute to Jesus Armas, City Manager of Hayward, CA. Mr. Armas is ending his long and distinguished career with the City of Hayward at the end of June 2007. Mr. Armas, who has been associated with the City for nearly 20 years, was initially Assistant City Manager and since 1993 has held the position of City Manager.

During his tenure, Mr. Armas has assisted the City Council in addressing a number of issues that were outstanding at the time of his appointment as City Manager. Among his first tasks was to help the City Council address the financial challenges facing the City. The City was experiencing declining revenues and a reduction in its fund balance. Working with department heads and with the cooperation and assistance of employees and their associations or unions, various cost-saving measures were presented and adopted by the Council, resulting in a balanced budget. This spirit of cooperation among all members of the organization was employed once again a decade later when a downturn in the economy required another belt tightening.

Mr. Armas has initiated and implemented a number of significant changes, which have made Hayward a better place in which to live and work. Under the City Council's direction, he initiated projects that dramatically transformed downtown Hayward. Construction of a new award-winning City Hall served as a catalyst for significant public and private sector investments in the downtown area. Housing and retail development continue at a fast pace. While many communities in the Bay Area talked about the concept of transit-oriented development, Hayward went beyond the talking stage and caused the concept to become a reality. Mr. Armas describes the transformation of downtown as something he is especially proud of.

Jesus Armas has been the force and vision behind many projects that have enhanced the social, financial and environmental well-being of the City of Hayward. In reflecting on his tenure, Mr. Armas said that beyond the bricks and mortar, what is noteworthy has been the opportunity to work in a diverse community, where differences involving race, ethnicity and languages, are embraced and seen as positive rather than negatives aspects of the community.

Mr. Armas states "I will be eternally grateful to Hayward residents for allowing me to experience a rewarding and enriching professional career." I join the City of Hayward, CA in expressing our profound appreciation to Mr. Armas for his exemplary commitment and dedicated public service.

HONORING THE STATE OF TEXAS  
FOR ITS CONTRIBUTIONS TO THE  
NATION'S CIVIL SPACE PROGRAM

## HON. NICK LAMPSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 23, 2007

Mr. LAMPSON. Madam Speaker, a resolution honoring the State of Texas for its contributions to the Nation's civil space program.

Whereas the Johnson Space Center (JSC), originally established as the Manned Spacecraft Center in Houston, Texas in 1961 and later renamed in honor of President Lyndon B. Johnson in 1973, continues to lead the National Aeronautics and Space Administration's (NASA) efforts in human space exploration;

Whereas JSC Houston is the home of NASA's Mission Control, the Astronaut Corps, and is the premier center for our nation's human space flight and related scientific and medical research efforts;

Whereas JSC's team of dedicated professionals has made advances in science, technology, engineering and medicine that enable us to explore our world and universe as never before, and to derive unparalleled benefits from that exploration;

Whereas JSC currently employs over 3,200 civil servants that include the NASA astronaut corps and over 12,000 contractor employees, which makes a significant positive economic impact on both the state of Texas and the city of Houston;

Whereas NASA's Explorer School program in Texas brings together educators, administrators, students and families in sustained involvement with NASA's education programs and provides grants to schools to support the purchase of technology tools, online services and in-service support for the integration of technology applications to engage students in advanced science and mathematics investigations;

Whereas NASA's next mission—Space Shuttle Mission STS-117—is scheduled to launch this summer and honors the state of Texas by having 3 hometown astronauts aboard Mission Specialist James F. Reilly of Mesquite and Mission Specialists Patrick G. Forrester and John D. Olivas, both of El Paso; and

Whereas native Texans and Astronauts Robert S. Kimbrough and Shannon Walker have qualified for future space flights as mission specialists, Astronaut Timothy L. Kopra is currently in training at JSC for future flight assignments, Astronaut Michael E. Fossum has flown 1 space flight, and Astronaut Kenneth D. Cockrell has flown on 5 space flights: Now, therefore, be it

Resolved, That the House of Representatives—

(1) Recognize these remarkable achievements to the nation's Civil Space Program by the State of Texas and its residents; and

(2) Congratulate NASA employees, astronauts, students, and teachers, for their ongoing contributions to the advancement of United States engineering, scientific, and aeronautic capacity, ensuring a brighter and stronger future for this Nation.
